

## MANIFESTO DESIGN

### EXCITING TIMES AHEAD FOR LEADING COSTA DEL SOL MARKETING AGENCY

There were exciting changes last year at Manifesto Design. New owners Kimberley and Ian Shenton bring with them a wealth of knowledge in both online and offline marketing. With a combined 50 years' experience, owning and operating award-winning marketing and print companies in the UK, they and Manifesto can offer even more new services to clients.

The company has undertaken a huge investment on the Costa del Sol, with new offices, the latest technology and, most importantly, a larger, forward-thinking team of experts in every area of both digital and offline marketing.

Announcing the changes, they said, "Let's kick-start 2023 the right way with a review of your marketing strategy. Using both our local and our international knowledge we can provide you with a detailed audit, giving you a unique insight into how you can achieve the best results for your business."

## RESIDENCIAS LUJOSAS VITALUX

### ANNUAL BUSINESS LUNCH IN MARBELLA

Residencias Lujosas Vitalux SL is a highly professional and successful real estate agency that has been operating for almost 15 years. Every year, founder and CEO Doris Kavcic invites her close collaborators for a great get-together and business lunch, and the 2022 setting was the superb Mexican restaurant Society 11:11 in Marbella.

In addition to the lunches, it also has become a tradition for Doris to express her appreciation by thanking everyone personally with a funny anecdote and kind words. The guests are always spoiled with gifts, and this year Doris gave Vitalux-branded denim shirts to the men and denim jackets to the women.
