

RESIDENCIAS LUJOSAS VITALUX

## SPECIAL COLLABORATION WITH GÓMEZ & MOLINA JEWELLERS

For Doris Kavcic, CEO of Residencias Lujosas Vitalux, S.L., it is important that “we should never forget to donate”. To that end, she says it has been an honour to collaborate with jewellers Gómez & Molina, who themselves have been supporting the Spanish Association Against Cancer for decades.

“This bracelet has been handmade using both ancestral techniques and the latest technology, combining tradition and modernism. I chose the colour red because in many cultures a red bracelet is a symbol of attracting positive energy, and the benefits of this bracelet are intended entirely for the AECC. It’s such a pleasure to give this gift to customers, business partners and especially supporting friends as a symbol of supportive kindness and gratitude.”

CHEFS FOR CHILDREN

## CHARITY GALA AT ANANTARA VILLA PADIERNA PALACE IN BENAHAVÍS

Many of Spain’s masters of cuisine came together last month at Anantara Villa Padierna Palace Benahavís Marbella Resort to support the ChefsforChildren initiative. Under the slogan “Eating Healthy is Fun”, the chefs took part in cooking workshops with 150 children, from Autism Spain and the Daidin and Atalaya schools in Málaga, helping them create simple recipes.

These workshops were followed by a charity gala dinner, presented by Fernando Ramos, where guests were able to share tables and meals with the chefs. The evening’s tasting menu was prepared by chefs from top restaurants (including Michelin star) on the Costa del Sol: Mario Cachinero (Skina); Benito Gómez (Bardal); Mauricio Giovanini (Messina); José Carlos García (José Carlos García Restaurante); Diego Gallegos (Sollo); Dani Carnero (Kaleja); David Olivas (Back); and Diego del Río (Boho Club).
