UNCORKING A SPECIAL EVENING OF FINE CHAMPAGNE AND CAVIAR

This summer the exclusive Owners Club at Puente Romano hosted the launch of VIP Wine Services, a specialist fine wine and Champagne supplier founded by wine lover and expert connoisseur Alex Little.

In the elegant surroundings of the five-star resort, guests listened to a brief introduction before enjoying a delightful summer evening tasting exclusive and rare Champagnes by Louis Dubosquet, one of the luxury houses personally represented by VIP Wine Services. To accompany the exquisite nectar, guests were also able to appreciate Royal Siberian Caviar.

The invitees included wine enthusiasts, food and beverage directors, sommeliers, members of the Owners Club, local media and executives from the luxury restaurant and hotel industry.

Alex Little is a specialist supplier of "the finest quality and rarest Champagnes and wines, sourced straight from the producers thanks to trusted personal relationships rather than from wholesalers. For this reason, the service is bespoke and VIP Wine Services is able to offer unique vintages that are otherwise very hard to come by. In fact, certain wines in stock are simply not available anywhere else in Spain."

VIP Wine Services also offers "a second-to-none delivery service, guaranteeing same-day local supply and ensuring that you or your client will never be kept waiting for that special bottle. Stock is maintained in a private bodega and you can be secure in the knowledge that no-one else will have handled your wine when you receive it – it is delivered in person, not through third party delivery companies."

Alex Little's cellar and bespoke delivery service caters to exclusive hotels, restaurants and private clients.

RESIDENCIAS LUJOSAS VITALUX TEN YEARS OF DEDICATION AND SUCCESS

It is sometimes said that modesty is an ornament. For Doris Kavcic, owner of real estate company "Residencias Lujosas Vitalux, S.L.", however, that also raises the question: do you get further in life without it? This is the 10th year of "Vitalux" and she admits quite freely, "It fills me with joy and pride!"

Doris recalls that 2009 was a year "when hardly anyone in Spain dared to start a new business", so Vitalux's success was greatly due to her single-mindedness. Today, the company is firmly established with a wide range of properties located between Málaga city and Estepona's surroundings, "from small residential gems to the most luxurious mansions".

Vitalux offers constantly updated offers for new developments,

regular advertising in local magazines and newspapers, and an international

and newspapers, and an international network.

Owners say they are thrilled with the dedication that Vitalux shows in advertising its real estate portfolio, and success has not been far behind, with annual turnover increasing right from the company's beginnings. Be inspired and visit their website...
